

All soaps begin with a base of certified organic and locally grown olive oil, plus certified organic coconut, palm, and castor oils.

All bars are made in a large 5oz size for \$7.50, and a travel or guest 2oz size for \$3.50

Elizabeth's Wild Hair Shaving Soap Developed by Elizabeth, a top-notch acupuncturist, this unique shaving soap incorporates the medicinal qualities of willow bark to tame those wild hairs which are so difficult to shave. And, you won't experience any painful razor bumps afterwards. Peppermint acts to energize and restore the senses. *(Containing peppermint essential oil, medium ground pumice, willow bark powder)*

Feeling Frisky Our own classic scent, this clever mixture of tangerine, grapefruit and lime with calendula flower petals evokes the sensation of an invigorating spa treatment. Perfect to be shared with someone you love. Grapefruit oil has a cleansing and toning effect, while tangerine oil helps to increase circulation to the skin. Calendula is long known to promote healthy, younger-looking skin. *(Containing tangerine, grapefruit, and lime essential oils; calendula flower petals)*

Ginger Snap! "Luscious.....yet with an attitude" would be the best way to describe this soap. Ginger is known far and wide for its myriad of medicinal uses. Here, the fragrance of fresh ginger essential oil stimulates your senses and helps create a mysterious environment for your bath. *(Containing ginger and sweet orange essential oils, ginger root powder)*

Lay Me Down Lavender There's nothing quite like the classic scent of lavender to evoke a delicately cleansed feeling. Lavender flowers are known for their relaxing benefits while the full, rich, and intoxicating aroma conveys a sense of balance and harmony. Lavender flowers gently exfoliate your skin for that especially inviting glow. *(Containing lavender essential oil; lavender flowers powder)*

Manly Man Finally - soap made for a man, yet gentle enough for a woman. Light scents of sweet orange bring cheer and happiness to the mind. It is then mixed with the astringent benefits of tea tree oil and a touch of pumice to smooth out those (manly) rough edges. *(Containing sweet orange and tea tree essential oils; and finely ground pumice)*

Peppermint Passion There's nothing like the 'hot' pairing of peppermint and spearmint to really arouse your senses - watch out! Peppermint energizes, stimulates and restores the senses, while Spearmint invigorates, exfoliates, and refreshes. *(Containing peppermint and spearmint essential oils; along with Spearmint leaves)*

Rosy Cheeks Rosemary Will they notice anything different when you go into work this morning? Tell them your rosy cheeks are from an exfoliant made from spearmint leaves that provide a fresh, clean, mint-y aroma which invigorates and refreshes. And, your inspiring smile comes from rosemary essences which calm apprehension while stimulating the spirit.....maybe they won't ask many more questions... *(Containing spearmint and rosemary essential oils, and spearmint leaves)*

Two in the Shower Tea Tree Save water - shower together! Even if pure myth - what a great way to experience the benefits of lavender, which will rejuvenate and inspire a tired person or relax, soothe and slow down someone who is stressed or tense. Naturally cleansing Tea Tree Oil helps lift the spirit. *(Containing lavender and tea tree essential oils; and green tea powder)*

We use certified organic, natural and sustainably grown ingredients to make our hand crafted and hand cut soaps.
